Generated Income

Lebanon's first Impact Sourcing platform, connecting young skilled freelancers coming from underprivileged communities with companies in need of fast, affordable and quality assured data services.

Since March 2018 and to-date B.O.T has worked with hundreds of young freelancers - 90% of which on a remote basis across all Lebanese regions - providing them with digital jobs

Youth Impact Story.

Mira T. - Beirut, Lebanon

Mira joined B.O.T in October 2018 graduating from a Bachelor in Sociology and completing the Digital Media Literacy and the Mobile Application Development courses with DOT Lebanon under the GIL program by UNICEF.

I started to get frustrated that I won't be able to find a job in Lebanon, but I've been generating income ever since I joined B.O.T and I'm thankful, this is my first working experience.

Watch this video where she talks about her achievements with B.O.T
